Courses

Javascript Courses by Angela Yu

I was opportuned to get hands on a Javascript course by Angela Yu and I put it to practice by building this e-commerce website <https://tobylobah.github.io/Ecommerce-1/>

Awards

Hackathon by Hacklab foundation [🔗](#)

Hacklab foundation 2022

I and my teammates participated in the Hackathon organized by Hacklab foundation by coming in as the 8th position out of 12

We built a simple question and answer app <http://questionbook.vercel.app>

Organisations

Try Kibo

Alumni

Try Kibo is a free internship program where web foundation and future proof with Python are taught for 5 weeks

I applied as an intern for Web foundation

I'm also an intern at Zuri x Ingressive for Good frontend program

I'm a member of I4G Circles and Empower her Community Organization

Profile

I'm Lateefat Bello

Currently, I'm a frontend developer and a computer science student at the University of Ilorin.

I am a 16 year old girl looking forward to explore the world through tech.

I have great leadership and communication skills in terms of working together with people to achieve a common goal as well as time management skills.

My goal is to develop considerably well and gain experience across different departments. I also want to achieve a divert set of skills and qualities that will help the organization of which I eventually work with move forward . Therefore to have a time management skill will help to prioritize things I need to do at the right time as I am a high achiever.
